- Adding value to shareholders' investment, maintain a steady growth in business and profit.
- Providing value-added products and services to its customers.
- Provide its employees with a professional development environment and grow together to achieve corporate goals.

Company Profile

Fior Drissage Jewellers Limited (FDJL), one of the leading manufacturers and marketers of Clear Set Diamonds jewellery, popularly known as “Floating Diamonds Jewellery” is a renowned Jeweller established under the Company act of Sri Lanka, and a registered company under the Registrar of Companies of Sri Lanka.

The registered office & Factory is located in the vicinity of the Bandaranaike International Airport & the Board of Investment (BOI) processing zone Katunayake, Sri Lanka . FDJL is a specialist manufacture of Gold jewellery studded with diamonds & precious gem stones using the revolutionary “Clear Set Diamonds” Process, which is also known as “Invisible settling” . This setting process does not require the use of any metal to hold the Gems or Diamonds. Therefore, the Diamonds or any Coloured Gem Stones are held free of any of the traditional holding materials and the result is the Diamonds and Gem Stones are totally exposed to light resulting maximum brilliance, luster & fire of diamonds & gems. Further, you may witness dynamic interplay of light as never seen before.

The “Clear Set Diamonds” Diamond Jewellery has excited the Jewellery Industry the world over. The holding substance used is a high percentage of clear carbon which is hard, ware resistance an easy to maintain.

INfinity[®]
Clear Set Diamonds

Advantage of the product includes,

- i) A “Clear Set Diamonds” setting process is backed by a “lifetime” warranty for setting for the original purchaser covering normal use.
- ii) All “Clear Set Diamonds” Diamond Jewellery manufactured by Fior-Drissage Jewellers Ltd is manufactured to the highest International standards.
- iii) Since the setting concept is unique and cannot be duplicated, the authenticity of the product is assured.
- iv) “Clear Set Diamonds” setting process amplifies the size of the Diamonds giving the appearance larger Diamond Stones when compared with the conventional setting concept such as prongs or pave setting.

Board of Directors

Mr. M.M. Neil Priyantha

Production Director

He was a pioneer in development of the Floating Diamond setting process at Blue Diamond Jewellery Worldwide PLC. He had well over 30 years experience in the manufacturing of Jewellery and has made a valuable contribution in the perfection of the Floating Diamond development process. He held the position of Director Research and Development and Setting Division of Blue Diamond Jewellery Worldwide PLC until mid 2012. Further use of coloured base materials to add a range of colours to the Floating Diamond Jewellery collection was initiated by Mr. Neil, which created an excitement in the Jewellery trade.
